

PERINBAN PARAMESHWARAN

SENIOR DATA ENGINEER

perinban.github.io/myPortfolio

Profile

Data engineer with 6 years of ETL development experience, driven to expand expertise through a Master's degree in Data Science. Specializing in Ab Initio environments, I leverage my expertise in GDE, Control Center, Conduct IT Plans, Express IT, TRW, Korn Shell Scripting and Oracle SQL to optimize project efficiency. Skilled in Agile and Waterfall SDLCs with a proven track record of driving automation and process improvements. Adept at leading teams, mentoring junior engineers, and delivering high-impact data solutions.
